

Nuclear Medicine Technology Program

Annual Program Credentialing Examination Pass Rate

Cohort Graduation Year	Number of Graduates	Number of Graduates Completing the NMTCB Examination	Number of Graduates Completing the ARRT(N) Registry	Number of Graduates Successful on 1 st Attempt NMTCB	Number of Graduates Successful on 1 st Attempt ARRT(N)	Percentage Successful 1 st Attempt
2025	3	3		3		100%
2024	4	4	1	4	1	100%
2023	7	7		7		100%
2022	6	6	1	6	1	100%
2021	5	5	2	3	2	71%
2020	4	4		4		100%
2019	7	7		7		100%
2018	5	5		5		100%
2017	3	3		2		67%
2016	6	6		6		100%
2015	7	7		7		100%
2014	3	3		3		100%
2013	4	4		4		100%
2012	7	7		7		100%
2011	5	5		5		100%

3-Year Program Credentialing Examination Pass Rate Average

3-Year Period	Number of Graduates	Number of Graduates Completing the NMTCB Examination	Number of Graduates Completing the ARRT(N) Registry	Number of Graduates Successful on 1 st Attempt NMTCB	Number of Graduates Successful on 1 st Attempt ARRT(N)	Percentage Successful 1 st Attempt
2023 - 2025	14	14	1	14	1	100%
2022 - 2024	17	17	2	17	2	100%
2021 - 2023	18	18	3	16	3	90%
2020 - 2022	15	15	3	13	3	89%
2019 - 2021	16	16	2	14	2	89%
2018 - 2020	16	16		16		100%
2017 - 2019	15	15		14		93%
2016 - 2018	14	14		13		93%
2015 - 2017	16	16		15		94%
2014 - 2016	16	16		16		100%
2013 - 2015	14	14		14		100%
2012 - 2014	14	14		14		100%

Credentialing examination pass rate is defined as the number of graduates who pass, on first attempt, the American Registry of Radiologic Technologists certification examination and/or the Nuclear Medicine Technology Certification Board examination.
