

Frequently Asked Questions (FAQs)

Why are the courses at Baptist Health Sciences University (BHSU) designed for flexibility?

Our online education courses are specifically tailored to meet the real-world needs of registered sonographers and their facilities. We understand the demands of working professionals who juggle work, family responsibilities, and other commitments. Therefore, our courses allow participants to access materials, complete assignments, and engage in discussions at times convenient for them, eliminating the constraints of traditional class schedules.

Who can benefit from these courses?

These courses are tailored for registered sonographers seeking professional growth, enhanced clinical skills, and flexibility in learning.

What does the hands-on skills training include?

The hands-on skills training provides small group sessions using modern equipment. These sessions can be conducted either at your workplace or at our dedicated training site in Madison, Mississippi. This training is aimed at supporting ongoing clinical development and career advancement.

Where is the dedicated training suite located?

The training suite is located in the medical office building at 401 Baptist Drive in Madison, Mississippi. This 500 square foot suite is designed to facilitate modern, student-centered learning.

How can I inquire about hands-on skills training?

To inquire about hands-on skills training, you can email the Registered Sonographer Education Admission Specialist at Registered.SonographerEd@baptistu.edu. They provide personalized support to guide you through the training topics and scheduling process.

What makes the online education courses unique?

Our online courses align with varied lifestyles by allowing sonographers to study at their own pace and schedule. This flexibility supports professionals in balancing work, education, and personal commitments.

What support is available for students?

BHSU offers a student-centered approach to learning, backed by modern facilities and support from Baptist Memorial Hospital in Jackson and the Blue Healer Student Success Center. Students have access to resources and guidance to help them succeed in their courses and training.

Are there scholarships available?

Yes, scholarships are available to help support students enrolled at BHSU.

When is the application deadline for scholarships?

The application deadline for Fall scholarships for the Registered Sonographer Education: Advancing Professional Skills for the fall term is August 1st and for the spring term is December 1st.

Where can I apply for scholarships?

Eligible students can access the scholarship application at https://www.baptistu.edu/sites/default/files/academic_programs/DMS%20Ultrasound%20Course%20Scholorshp%20Application%20FA25.pdf

Who can I contact for questions about the courses?

For inquiries about online courses or hands-on skills training, you can reach out to the Admission Specialist at Registered.SonographerEd@baptistu.edu.

How does BHSU support career advancement?

Through flexible online education and hands-on training opportunities, BHSU equips sonographers with the skills and knowledge needed for clinical development and career growth.

BHSU is committed to helping you grow professionally on your schedule and in a way that works best for your lifestyle and aspirations.
