

Student Achievement Metrics

Pass Rates on Licensure/Credentialing Exams

Annual pass rate on licensure/credentialing exams is one of Baptist University's student achievement metrics. Figure 1 shows the five-year trend, with each cohort exceeding the threshold of acceptability of 80%. As part of the current strategic plan, the University strives for a goal of a 95% first-time pass rate. Most recently, 120 of BHSU graduates from academic year 2020-2021 had clinical majors and sat for national licensing/credentialing exams for which their major areas of study prepared them; 88% (n = 106) were successful on their first attempt. Eight additional students passed a credentialing exam on their second attempt, bringing the total pass rate within one year of graduation for this cohort to 95%.

Figure 1

Notes: N values: 174 students graduated fall 2020 thru summer 2021. Of those, 120 had clinical majors and sat for national licensing/credentialing exams for which their major areas of study prepared them. 213 students graduated fall 2019 thru summer 2020. Of those, 165 had clinical majors. 231 students graduated fall 2018 thru summer 2019. Of those, 156 had clinical majors and sat for national licensing/credentialing exams.
